CAREER OBJECTIVE :

A proactive and driven React.js Developer with a strong foundation in frontend development. Graduated with a degree in MCA, I possess hands-on experience in building responsive web applications using React.js, HTML5, CSS3, Bootstrap and JavaScript. Skilled in translating design mockups and wireframes into clean and efficient code, I am committed to delivering high-quality, user-centric solutions. Seeking an entry-level position to contribute my technical skills, creativity, and enthusiasm for frontend development while continuing to expand my knowledge and expertise in React.js.

SKILLS :

- HTML5
- CSS
- JavaScript
- Bootstarp
- React
- Redux
- GitHub

WORK EXPERIENCE:

FRESHER

PROJECTS :

PORTFOLIO [ViewDemo](#)

Description:

Developed a personal portfolio website to showcase my skills, resume, and projects.

- Implemented modular React components for reusability and efficient rendering
- Styled with CSS Flexbox and Grid to create a mobile-first, responsive layout
- Added smooth scrolling, hover effects, and client-side routing with React Router
- Hosted the application using Firebase Hosting.
